

MINUTES  
BOARD OF SUPERVISORS  
COUNTY OF YORK

Regular Meeting  
February 7, 2006

6:00 p.m.

Meeting Convened. A Regular Meeting of the York County Board of Supervisors was called to order at 6:00 p.m., Tuesday, February 7, 2006, in the East Room, York Hall, by Chairman Walter C. Zaremba.

Attendance. The following members of the Board of Supervisors were present: Walter C. Zaremba, Sheila S. Noll, Kenneth L. Bowman, James S. Burgett, and Thomas G. Shepperd, Jr.

Also in attendance were James O. McReynolds, County Administrator; J. Mark Carter, Assistant County Administrator; and James E. Barnett, County Attorney.

**WORK SESSION**

FISCAL YEAR 2007 BUDGET—FY07 NEW PROGRAMS/PERSONNEL AND FY2007-2012 CAPITAL IMPROVEMENTS PROGRAM (CIP)

Mr. McReynolds stated that tonight staff planned to address questions that were left unanswered from the last work session concerning new personnel, programs, and equipment, and answer any other questions the Board might have after reviewing the material that was provided at the last work session. He indicated there would then be some brief comments on the CIP.

Mrs. Marycarol White, Director of Financial and Management Services, reviewed the questions from the last work session which provided information on:

- Quantifying the number of positions in each activity and when the last new position was added
- Sheriff's calls for service—quantify by deputy
- Fire Station #2 (Tabb)—further justification
- Library activity levels—quantify growth with increases in staff
- Library assistants—when were positions last evaluated
- Down Payment Assistance Program—provide more details on how program would work
- Voting machines—option for capital lease

During the review on the new personnel requests, new program requests, and new equipment requests, the following positions had revised staff recommendations:

Judicial Services—Commonwealth Attorney

1 FTE—Assistant Commonwealth Attorney I

- ½ upgrade to current position recommended ONLY if state share of funding is provided

Board consensus for revised recommendation

1 FTE—Administrative Assistant

- Position not recommended for funding in FY07

Board consensus for revised recommendation

Judicial Services—Victim-Witness Assistance Program½ FTE—Victim Advocate

- ½ FTE upgrade recommended for funding in FY07 without position re-classification

Board consensus for revised recommendation

Community Services—Housing AssistanceDown Payment Assistance Program

- Proposal withdrawn at the request of the Department. May be re-submitted for FY08

General Administration—Electoral BoardVoting Machine Replacement

- Acquisition recommended through capital lease

After a discussion regarding the request for a full-time Computer Support Specialist/Crime Analyst in the Sheriff's Office, the Board deferred action on the position and other positions requested until it receives further information from the Sheriff.

After an extensive discussion regarding requested positions in the Department of Fire and Life Safety, the Board, by consensus, agreed that staff would proceed with plans to apply for a SAFER Grant to fund six EMS/Firefighter positions and go with staff recommendation on other positions.

After an extensive discussion concerning requested positions for the Library, the Board, by consensus agreed to proceed with staff recommendations except for the Library Clerk position, which the Board agreed to, and to see how they fit in with the library needs assessment.

Meeting Recessed. At 7:56 p.m. Chairman Zaremba declared a short recess.

Meeting Reconvened. At 8:04 p.m. the meeting was reconvened in open session by order of the Chair.

At this time Mrs. White continued with the review of the Non-General Fund personnel requests for existing programs.

Regarding the staff recommendation not to recommend a full-time Construction/Maintenance Worker II for the Sewer Fund, the Board asked that staff re-look at the request.

Discussion ensued on advertising for the public forum and future work sessions on the budget.

Mr. McReynolds then stated there were no major changes in the CIP based on input at the last work session. He stated the bids were just received bids for the Moores Creek Phase I project, but they are about 80 percent over the engineer's estimate. Staff has not had an opportunity to see why the engineer's estimate is so different from the bid. If those numbers hold true, Mr. McReynolds noted it might have serious implications for other drainage projects throughout the CIP.

Chairman Zaremba asked when the stormwater review normally takes place.

Mrs. White noted normally in the fall the review takes place; but given the current problems, staff will probably schedule the review sooner.

Mr. McReynolds indicated he did not feel it would impact the CIP other than the drainage projects themselves. He stated staff would have to look at timing and how to finance the projects.

Mr. Burgett noted that the people who frequent the Senior Center really like being in the shopping center, and staff is projecting funding in the future for a new place. He recommended

moving that over to library needs in the northern portion of the county.

Mrs. Noll agreed with Mr. Burgett, stating if the County acquired another unit and expanded that way would be a better option.

Chairman Zaremba noted this could be part of the discussion when the Board talks about the needs assessment of the Library Board.

Mr. Burgett also suggested using the \$30,000 for the study.

Mr. McReynolds noted the \$30,000 was not recommended.

Mrs. Noll stated it should have been to plan for the future. She indicated she wants to make sure the Board knows how much things will cost and to survey the people in the northern part of the County to see if they would support another library.

Mr. Burgett noted his agreement with Mrs. Noll.

#### PROPOSED REGIONAL HAZARD MITIGATION PLAN

Ms. Leigh Morgan, representing Salter's Creek Consulting, briefed the Board on the purpose of the mitigation plan which is to reduce or eliminate the long-term risk to human life and property from natural hazards through building of public support for mitigation activities, developing effective public education policies regarding mitigation, and by obtaining disaster-related grants in the aftermath of a disaster. She noted the plan focuses on the areas of prevention, property protection, structural projects, natural resource protection, emergency services, and public information. Ms. Morgan stated that the elected boards and councils of each jurisdiction are being asked to review and officially adopt the plan, making it a governing document for their community. The plan is currently under review by the Virginia Department of Emergency Management and FEMA Region III. Ms. Morgan then reviewed the mitigation goals and objectives and the recommended action items for York County.

Discussion followed on the expensive cost in York County to meet some of the proposed goals.

Mr. Shepperd asked if the Board had to accept the recommendations in their entirety, or could it abstain from or reject certain portions.

Ms. Morgan stated the Board could accept or reject any portion, but each locality must approve its portion of the plan. She noted that FEMA will not allow any funding unless the mitigation plan is in place.

Discussion followed on the plan and its recommendations and how the plan will ensure that York County has a better opportunity to receive grant funding for losses in future disasters.

Chairman Zaremba asked when the Board would have the plan to look at in detail.

Ms. Morgan indicated she was expecting it to be sent to FEMA any day, and it has 45 days to review it. She stated she was hoping the localities would receive it within 90 days.

Chairman Zaremba asked what the Board was being asked for at this time.

Mr. McReynolds stated staff was looking for a consensus to move forward with the plan and using it as a guideline to develop a long-range plan to address some of these flooding issues in order to stay competitive to apply for other grants. He stated he felt it was a reasonable way to proceed to address these areas.

Mr. Carter further noted that the document has been sent to the state and hopefully will soon be sent to FEMA for review. The primary goal now is to determine if the plan addresses all the required elements. The Board still has the ability to say a particular item is not appropriate for York County and take it out. He stated that tonight was just an introduction to the process.

Ms. Morgan stated the Board only has to have one recommended action item. FEMA is looking at whether or not the process was followed in developing the plan.

February 7, 2006

By general consensus, the Board directed staff to move forward with development of the County's mitigation plan.

### **CONSENT CALENDAR**

Mr. Burgett moved that the Consent Calendar be approved as submitted, Item Nos. 2, 3, 4, 5, and 6, respectively.
